GRAND MASS MEETING

### AMERICAN PARTY.

AMERICANS, PICK YOUR PLINTS!

A GRAND MASS MEETING of the AMERICAN PAR-TY of Davision and adjoining counties, will be held at the COURT HOUSE in this City on SATURDAY, the 25th inst. Able and distinguished Speakers from abroad, as ing. well as from home, are expected to be present.

Let the American parts, especially, turn out Ex MASSE.

RIVER NEWS .- The river was still rising vesterday, with full six feet on Harpeth Shoals. The Umpire arrived up with a light frieght She took on a load of wheat, and left yesterday evening for Paducah.

There are two or three boats up the river londing with Tobacco that will be down today and to-morrow.

#### Mechanics' Fair and Exhibition.

We hope our mechanics and manufacturers, and all others interested throughout the State, will bear in mind that the first Annual State Fair of the Mechanics' Institute of the State of Tennessee, opens at Odd Fellows' Hall in this city on the first day of October. The mechanical interest of Tennessee has never before had an opportunity of displaying itself. Very little is known in one city, town or county in the State as to what is doing in the city, town or county adjoining in the way of advancing and promoting this important department of industry. The manufacturer of cotton cloths in Middle Tennessee scarcely knows who his competitors are in the West, or whether or not he has any. The founder and manufacturer of castings in Nashville is ignorant of the condition of his own trade in Knoxville, there. One of the great ends to be attained sired. by this Fair and Exhibition is to bring these mechanics and manufacturers together, that they may compare notes, and receive mutual benefit, and return to their homes imbued with a new stimulus to improve their respective trades, and advance the standard of mechan cal skill in l'ennessee. Is not such an objecworthy of the attention of all? And yet some old fogy may shrug his shoulders, and say, "Oh! it don't pay!" But it does pay, though. The mechanic who can turn off an article article alongside his neighbor's, eliciting criti- wholesale. cism, and thus bringing himself and his business to the notice of a thousand or two of people. And if worthy, he will get a handsome diploma, which will be of service to him in is no lack of indocement to secure an interest in the exhibition. But we believe the mechanics and manufacturers of Tennessee, as a general thing, will be influenced first by a higher motive-by a desire to place themselves in a more honorable and creditable position, with respect to their competitors in other States,

Very much has been said publicly and privately of the unfortunate fact that our natural advantages have been turned to disadvantage by a want of enterprise and emulation among our citizens-our material is imported by the thrifty mechanic of another State, and the products of his skill sent back upon our hands, products of his skill sent back upon our hands, and used by ns, at a much greater cost than Nortice is hereby given to the Stockholders of the lienthey could have been purchased had the ma- before the 10th day of September next. terial been near the workman's door. But how is this evil to be remedied? Most certainly by a mutual coming together, and comparing of Idea's and experiences, by adopting the most approved plans and discarding the late firm. old foggyisms which are weighing us down from year to year. No proposition can be I have been engaged for several years, I return my sin cere than this.

WEEKLY REVIEW OF THE MARKET. TRUE WHIG OFFICE.

NASHVILLE, Aug. 16, '1855. The weather for the last few days has been intensely hot, after a week of heavy rains.

The river has been steadily swelling for several days, and we have now an unusually fine stage of water for this season of the year-about six feet on Harpeth Shoals.

Business is quite brisk for the season. Our wholesale Dry Goods merchants are filling their shelves and tables with the finest stocks ever brought to this market, and will offer the trade extraordinary inducements. In Groceries there is ittle doing. The Produce dealers are quite active, and are doing a healthy business.

COTTON-There is nothing doing in Cotton,he growing crop is beginning to attract attention, nd so far as we hear, the prospects are very fine this State. Considerable apprehension was felt account of the profuse rains, but we believe all rounds for this have disappeared for the present. TOBACCO-There is nothing doing in Tobacco. Dur accounts of the crop in this State and Kentucky are highly flattering.

DRUGS AND DYES-The trade in this department presents no new feature of remark. Our merchants are replenishing their stocks, and preand scarcely knows if he has a competitor paring to offer the trade everything that can be de-

> FLOUR-We have heard of no movement in flour since our last. The stock on hand is sufflcient for the demand and prices are unchanged. GRAIN-The trade in WHEAT continues heavy, and prices unchanged. Our dealers are buying readily at 75c.

PROVISIONS-Bacox is unchanged, and trade ather inactive. We quote hams at 11a111; shoulders 9a10; sides 10a11; and hog round 10a104. A good article commands a rady e sale. BUTTER is still quoted at 121a15 to the trade in large quantities. LARD is held at 12a15, an advance of 2c to worthy to compete with that of his neighbor, | 3c, which is the wholesale price. Letter from Hon. John Minor Botts, of Virginia.

RICHMOND, July 9th, 1855.

Messrs. Wm. S. Beers & Co., Genis.—Considerations of duty to the afflicted alone prompt me to send you this vol-

untary testimonial to the greet value of "Carter's Spanish Mixture," for that almost incurable disease, Scrofula. Without being disposed or deeming it necessary to go in-

to the particulars of the case, I can say that the astonishing results that have been produced by the use of that med

icine on a member of my own family, and under my own observation and superintendence, after the skill of the best physicians had been exhausted and all the usual remedies

had failed, fully justify me in recommending its use to all who may be suffering from that dreadful maindy.

I do not mean to say that it is adapted to all constitutions or that it will afford the same relief in all cases; for, o

course, I can know nothing about that—but from what I have seen of the effects, I would not besitate to use it, in any and every case of Scrofula, with persons for whom I felt an interest, or over whom I could exercise influence or

Immense Sale.

It has long ceased to be fashionable to "puff" patent med-

lines, or do any thing to enhance their sale; not from any

particular prejudice that has arisen in the public mind

against them, but simply from the worthlessness of nearly

all the "great remedies" crowded into the market. But oc-

casionally a medicine that possesses real merit is brought

into light-one that is really what it purports to be. Of

this class, Sioan's preparations can be ranked with safety,

for we have heard of no instance where his medicines have been tried, but that the follest satisfaction has been given,

and their immense sale win fully attest their popularity. Freepart Journal, Ill.
